French Bulldog Itchy Skin Checklist

Common signs owners may notice

- | | | | |
|---|---|---|---|
| <input checked="" type="checkbox"/> My French Bulldog scratches or bites at the skin often |  | <input checked="" type="checkbox"/> My French Bulldog shakes the head or scratches the ears |  |
| <input checked="" type="checkbox"/> My French Bulldog licks or chews the paws |  | <input checked="" type="checkbox"/> My French Bulldog has skin odor or greasy skin |  |
| <input checked="" type="checkbox"/> My French Bulldog rubs the face or muzzle |  | <input checked="" type="checkbox"/> My French Bulldog has rashes, crusts, or hair loss |  |
| <input checked="" type="checkbox"/> My French Bulldog has red or irritated skin |  | <input checked="" type="checkbox"/> My French Bulldog seems itchy all the time |  |
| <input checked="" type="checkbox"/> My French Bulldog gets recurring ear infections |  | <input checked="" type="checkbox"/> The symptoms keep coming back |  |
| <input checked="" type="checkbox"/> My French Bulldog shakes the head or scratches the ears |  | <input checked="" type="checkbox"/> The problem gets worse even with basic cleaning or flea control |  |

If several of these signs are happening, allergies, fleas, yeast, or skin infection may be involved. A veterinarian is needed to confirm the cause.
